Health Department,
The Clinic,
Cecil Avenue,
Skegness.

Madam Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report on the health and environment of the town, for the Year 1970.

The mid-year population as supplied by the Registrar General was 12,520.

During the year there were 177 births, 16 of which were illegitimate, giving a birth rate of 14.1 per 1,000 population, lower than the national rate of 16.0. The illegitimate live births as percentages of all live births was 9, 4 lower than last year, while the national rate was 8. There were 209 deaths from all causes, 3 more than last year, giving a death rate of 16.7 higher than the national rate of 11.7. There were 2 deaths in infants under 1 year, one of which was illegitimate, a mortality rate of 11 per 1,000 live births, national rate was 18. 78.9% of deaths occurred in persons over 65 years, Ischaemic Heart Disease and Cerebrovascular Disease again being the greatest killer, whilst malignant neoplasm of the lung caused 8 male deaths 1 more than last year. There were 59 cases of infectious disease notified, 49 Measles, 1 Whooping Cough, 1 Meningococcal Infection, 1 Pulmonary Tuberculosis and 7 Infective Jaundice.

On the environment side 37 houses were erected none by the Local Authority. Demolition Orders were made in respect of 2 houses and 15 houses were demolished. Caravan Sites licensed were 20, accommodating 3,538 Vans. Sites were regularly visited and 18 contraventions remedied, there were 145 Chalets. Under the Offices, Shops and Railway Premises Act 347 premises were registered, these were regularly visited and 54 defects remedied. Refuse continued to be collected weekly in winter, parts of the district twice weekly in summer, where necessary daily during the season, disposal by controlled-tipping.

The water supply to the town was satisfactory in quality and quantity, there were no bad bacteriological reports, and no action had to be taken in respect of contamination. The number of dwelling houses supplied direct from public water mains was 5,102, and the population served was 12,520, no dwelling house was supplied by means of a stand pipe. As regards fluoride content Skegness is supplied with a small quantity of water from the two bores at Mumby. (Sandstone Bore) fluoride content 0.75 p.p.m., (Chalk Bore) fluoride content 0.11 p.p.m. It also gets its supply from (Welton Bore) fluoride content 0.03 p.p.m., (Candlesby Bore) 0.14 p.p.m., and (Orby Bore) fluoride content 0.02 p.p.m. During the summer months it also gets a supply from the Driby source, fluoride content 0.09 p.p.m.

I take the opportunity of thanking the Health Committee for their interest in the Department, and Chief Public Health Inspector and staff for their co-operation.

I am,

Your obedient Servant.

A. LOFTUS
Medical Officer of Health.
